DETAILED ACTION

This is a Notice of Allowance for application no. 10/037,241 in response to the After Final Amendment filed on December 20, 2005 where in claims 3-6 are presented for examination.

Allowable Subject Matter

Claims 3-6 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose an image signal output device as claimed.

As stated in the Final Rejection sent September 21, 2005, the closest prior art (US Patent 6,263,164 to Nakahara et al.) discloses a similar image signal output device. However, Nakahara does not teach "wherein the width of said quantization and conversion region is varied and determined during quantization by first and second reference voltages". Claims 4-6 are allowable as being dependent on the allowed claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 571-272-7338. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on 571-272-7418. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
